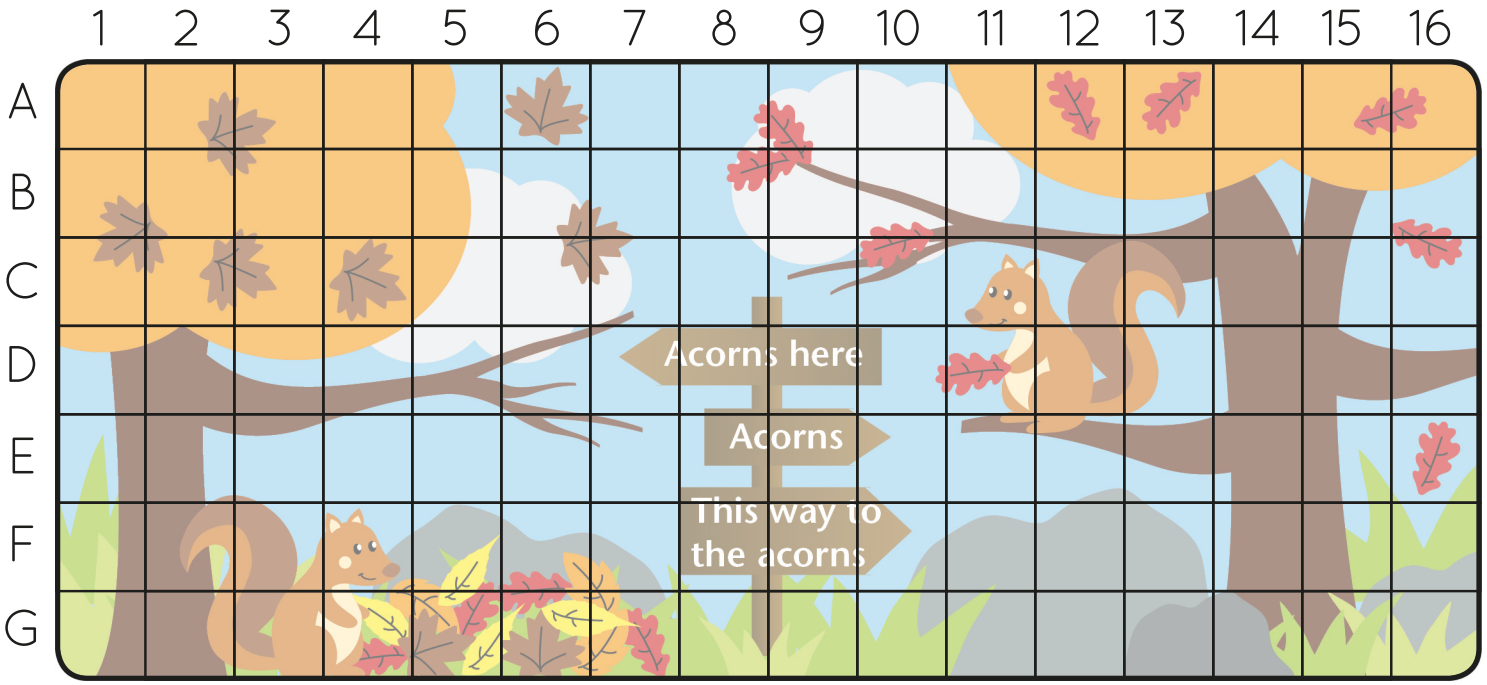
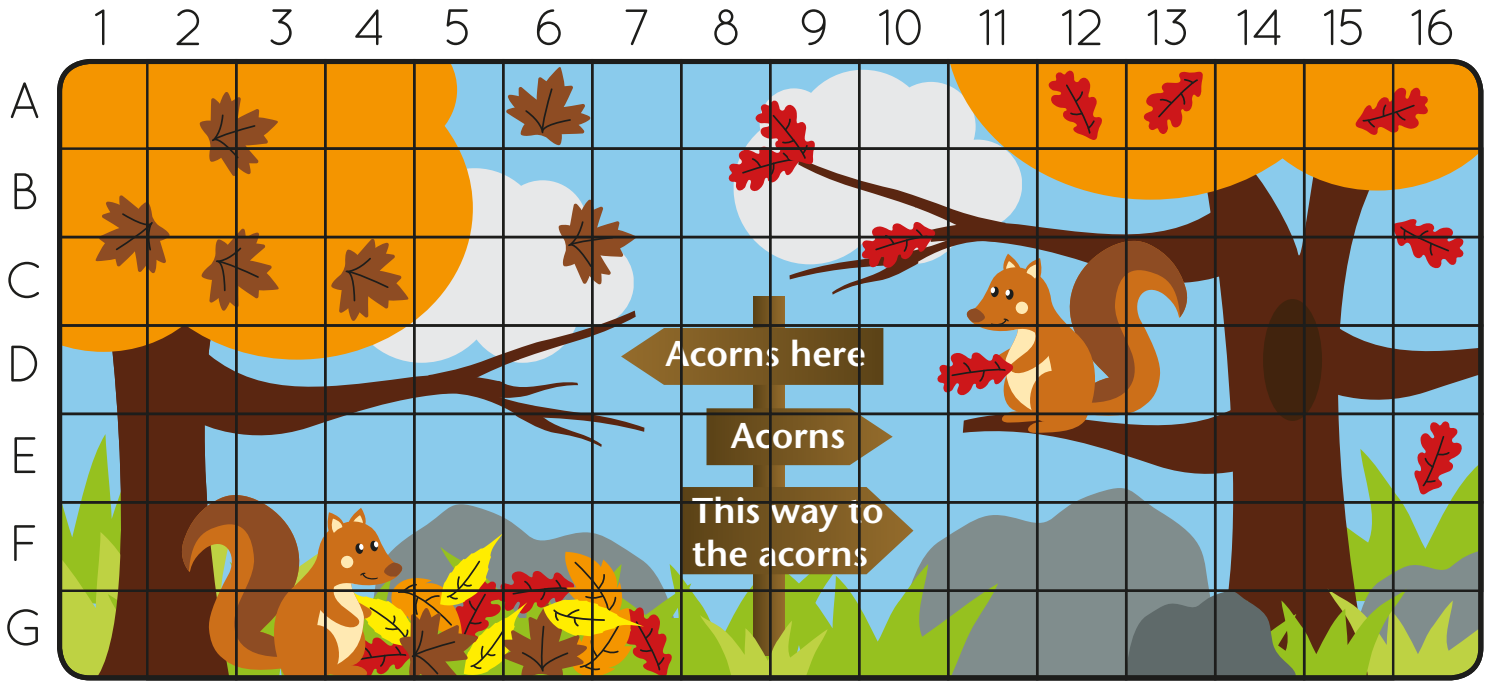
Hide the Acorn Game

A treasure hunt game for 2 players




1. Print two copies of this game page.
2. Each player secretly draws an acorn somewhere in the bottom grid and then folds the bottom section to keep their acorn location hidden.
3. Take it in turns to try and find out where your opponents acorn is by asking questions, e.g "Is your acorn on a tree branch?".
4. Use the top grid to make a note of your opponents answer, e.g. If they answer 'no' you can place a cross in any square with a branch in it.
5. The first person to find their opponents acorn is the winner.
